HEARTWOOD CHRISTIAN ACADEMY

A ministry of Oak Park Church

Empowering Home-Educating Families to Raise Godly Leaders

Why Heartwood Christian Academy?

Heartwood Christian Academy is here to serve homeschooling families of Mobile County and nearby Alabama and Mississippi counties.

Christian Heartwood Christian Academy is a home school program for families of Mobile County and nearby Alabama and Mississippi counties. HCA is a church school as defined under Alabama State law. **Experience** Our school leaders either have homeschooled themselves or have worked with homeschooling families for a number of years. They can answer many questions! **Encouragement** Through personal relationships and activities, we help families in building a strong biblical, spiritual, moral, ethical, and academic foundation in their children.

- Enjoy a network of home schooling parents and students.
- Co-op classes / clubs available to all homeschooling families.
- You can save a little with the co-op classes / clubs by enrolling your child in Heartwood Christian Academy. Plus you get all the benefits!

Either way you join our activities, we welcome families of similar beliefs...

For the Homeschooling Teacher

Personalized support and guidance in appropriate curriculum, maintenance of school records, and lots of other areas.

Heartwood maintains your child's school records, documents high school credits, and provides the transcript and high school diploma.

Support Workshops are offered to help clarify requirements for high school credits, for the new family, etc.

S.A.L.T. - *Sharing . Asking . Learning . Teaching* is an informal fellowship of family teachers which includes group discussions, guest speakers, and sharing of home school ideas.

For the Homeschooled Student

Let's Go Learn Our families use K-12th grades diagnostic online assessments in reading and math skills to improve their student achievement. Learn more at <http://www.letsgolearn.com/mathematic>.

STANDARDIZED ACHIEVEMENT TESTS are administered in the spring to Grades 3, 5, 8. The student results are helpful for the home teacher to see strong and weak areas in the student learning. Also there are state and national comparisons.

The optional **ASVAB CAREER EXPLORATION TEST** is for grades 10-12. Many of our students take the ASVAB to guide them in their vocation or to confirm their career choice. Check out <http://www.asvabprogram.com/>

Individual colleges and universities have minimum ACT™ standards for entrance. Because of this, we set ACT™ standards for our graduates. However, if a student fails to meet this standard, we work with the family for other options for the high school diploma.

COLLEGE DUAL ENROLLMENT is an option for the high school student to earn college credit. We can help guide the family to find the best opportunities for their student.
